Body

Document Body

Steve,

Here are EPA's responses to the Canneries' questions/concerns that were discussed at the October 22, 2007. Any changes and/or modifications described in this document will be made to the pre-draft permits. As I mentioned in our phone conversation on Friday, October 26th, I do not anticipate the need for additional review of the revised permits prior to public noticing in January (or before if possible) since the attachment document should clearly address the

Canneries' concerns. If not, there will be a 30-day public comment period that the Canneries are welcome to submit formal comments. Please let me know if you have any questions.
